

Sudheer Kumar Shrivastava

Immediate Joiner | Senior Software Engineer (7 Year)

 Jabalpur  9009662007  sudhershri007@gmail.com  <https://linkedin.com/in/sudheershri/>

Profile Summary

Experienced in PHP and Node.js, with strong skills in backend development, building RESTful APIs, and managing databases like MySQL and PostgreSQL. Proficient in using frameworks such as Laravel, CodeIgniter, Symfony and Express.js to create scalable and efficient applications. Focused on writing secure, fast, and easy-to-maintain code. Skilled in connecting third-party APIs, solving complex problems, and working in agile teams. Dedicated to delivering reliable solutions and learning new technologies to stay updated.

Skills

LAMP, PHP, CodeIgniter, Laravel, Node.js, Express.js, MySQL, PostgreSQL, MongoDB, JavaScript, jQuery, HTML, CSS, Bootstrap, AJAX, REST API, Payment Gateway Integration, Website Hosting (AWS, GoDaddy, Namecheap, Hostinger, and others).

Experience

Sakhatech Information Systems Pvt. Ltd

Senior Software Engineer

Bangalore

Jan 2022 - July 2024

- Executed complex tasks using PHP and Laravel, resolving critical errors to ensure seamless project operations, and minimal downtime.
- Engaged with clients to gather requirements, translating them into technical specifications using JavaScript, HTML, and CSS, ensuring alignment with business objectives.
- Designed and implemented new features and functionalities in web applications, utilizing jQuery and Bootstrap to improve user experience and engagement.
- Conducted comprehensive code reviews for MySQL and PostgreSQL applications, upholding best practices and coding standards to foster a culture of quality.
- Managed version control systems and maintained codebase integrity.
- Coordinated with quality assurance teams to ensure software met all testing criteria.

SMTGROUP

Php Developer

Indore

June 2017 - Nov 2021

- Executed development tasks in Core PHP, CodeIgniter, and Laravel to meet project deadlines while adhering to high-quality standards.
- Designed user interfaces using AJAX technologies.
- Established hosting for each website and completed go-live process by uploading sites to host account.
- Designed and developed RESTful APIs using Laravel and CodeIgniter for seamless integration with front-end applications, enhancing functionality and user experience.
- Troubleshoot and resolved issues in existing applications built with Core PHP and Laravel, significantly enhancing user experience and application stability.
- Assisted in the architectural design and planning of new projects, focusing on scalable solutions using CodeIgniter and RESTful API methodologies.

Education

Master Of Computer Application (MCA)

RGPV Technical University, Bhopal

Bechelor Of Computer Application (BCA)

RDVV University, Jabalpur

Projects

E-commerce Platform

Built RESTful APIs for an e-commerce platform to handle user registration, login, and role-based access; created APIs for managing products, adding items to the cart, placing orders, and processing payments; added features for admin tasks like updating inventory and tracking orders; focused on making the APIs fast, secure, and easy to use.

Technology: Node.js, Express.js, JWT, PgSQL, Stripe

Event Management System

Laravel and **MySQL**-based platform for organizing events with structured role-based access. Providers create events, which are verified by Publishers before public listing. Volunteers can register and participate, while Admins manage users, approvals, and settings. The system includes event workflows, public listings, volunteer management, payment integration, and automated notifications, ensuring a smooth and efficient event planning process.

Technology : Laravel 10, MySql, Passport-Token, Stripe Payment Gateway

Domain Expertise

E-commerce , Hospitality , Travel & Booking , School Management , Event Management , Cab Services , Tracking System , Finance loan system
